Dr. Hawkshead asked what the notification letters from the Park Ridge Water Department were for. Dr. Lincoln said we are an advisory board. The letters are sent to advise the board of the status of the water in town. The board does not make any comments to the water company. Dr. Valas pointed out that we are a rule-making board. Dr. Miller said in the past, the Director of Operations, Mr. Bill Beattie, would take the board on a tour of the water company and wells in town, and periodically he would attend one of Park Ridge Board of Health meetings. Councilman Goldsmith said that overall, the Park Ridge Water Company has 22 wells. He also mentioned that even if a well is offline, the water company is obligated to report any issues with the well. Dr. Lincoln asked Ms. Janeiro if she could reach out to the water department and coordinate a tour.

Dr. Valas spoke about the Independent Review of New Jersey's response to the Covid-19 pandemic. She sent the link to the report to Ms. Janeiro and asked her to forward to all board members.
